PRESS RELEASE

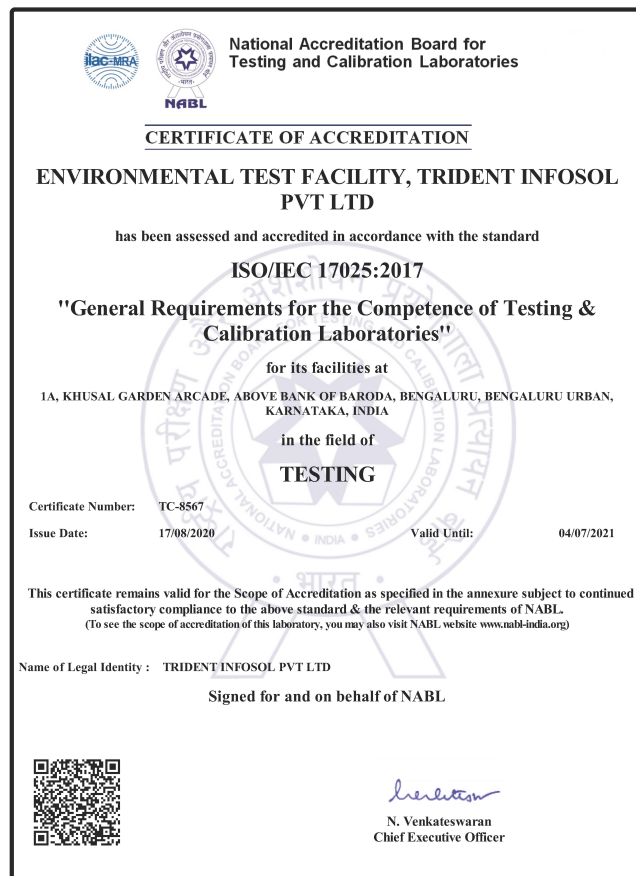

FOR IMMEDIATE RELEASE

Accreditation of NABL Certification for Environmental Test Lab

Bangalore, August 1, 2019

Trident Infosol Pvt Ltd. is proud to announce that its environmental testing facility has been awarded NABL certificate, the ISO/ IEC 17025 certification for product testing. This adds up another feather to the cap along with CEMILAC and AS9100D certificates. This success is a result of always aiming at improving our products and services through best practices. As we continue to grow and add further capabilities to our roster, we will continue to strive to make improvements and exceed the high expectations of our customers by setting up goals focused on the emphasis of quality assurance and innovative production. Getting our testing facility formally accredited as an ISO 17025 facility is another way for us to stand by the commitment on quality to our customers. The modern, technology embedded state of the art testing facility can be used for testing products of Electronics, Electrical, Electromechanical, Mechanical Equipment and Aerospace Components.

The Company's high-quality standards have been the key to its success. The story of our pursuit for quality certifications started right from our inception in 2000. And, it is a continuing saga, with the aim of continual improvement by adapting the best practices followed in the design, engineering & manufacturing industries. Delivering quality products and service has been part of our organizational culture. This NABL certification further strengthens our commitment to our customers and our company quality policy.

Certificate Number: TC-8567
